Worcestershire Proof of Concept Full Application

This is a single LEP project which is requesting a total of £5,150,314 (£2,575,157 ERDF) from WLEP PA1 allocation. Although it is an extension of an existing project there are also changes to the scope which means a new contract will be issued should it be approved.

VFM is satisfactory; it proposes to deliver 150 C1 outputs which represent 90% of the WLEP C1 output target for PA1. It should be noted that the current project is performing well.
